## Expanding Horizons Internships Luncheon and Culmination Ceremony

[Constitutional Rights Foundation](#) would like to invite you as a guest to our congratulatory luncheon celebrating our group of [Expanding Horizons Internships](#) (EHI) students. These college-bound youth completed our intensive internship program, including a five-week internship in a professional job setting and almost 50 hours of college and career preparation seminars.

This program changes the lives of underserved high school students who are given few opportunities for professional and academic growth as they prepare for college. At this luncheon you can meet the students and see how EHI forever impacts their futures by providing professional job and critical thinking skills.

You can also meet current employers and hear how sponsoring an intern made a positive impact on their employees and workplace.

*EHI changes students' lives, but if you ask anyone at our firm, each intern we've hosted throughout the years has made a positive and lasting impact on our lives, as well.*

- Julie Inouye, Dentons

### Internship Program Graduates

On Friday, July 14, more than 30 high-school students and their parents gathered at The Driving Museum in El Segundo, for a culmination event for Constitutional Rights Foundation's Expanding Horizons Internships program. Also attending the event were South Bay business leaders who support the program. Expanding Horizons Internships provides high-school juniors with a paid five-week internship and nearly 50 hours of intensive college and career preparation. During the seminars, these students enhance their communication and networking skills, learn professionalism in a work environment, engage in SAT-ACT prep, and participate in college essay writing activities. At the work site, each intern focuses on a variety of tasks provided by a supervisor. This critical work experience helps develop the students' confidence, critical thinking, and professional workplace skills to further their academic growth as they prepare for college and career.

Constitutional Rights Foundation is a non-partisan, nonprofit organization. For over 50 years, it has provided teachers and students with programs and materials focused on civic and law related education to promote the knowledge, skills, and dispositions of effective and engaged citizens. For more information, visit the CRF website at [www.crf-usa.org](http://www.crf-usa.org).
